SERVICE DESCRIPTION:

Our alarm monitoring solution interfaces with all major brands of security detection equipment and cloud-based platforms including Apple, Google, and Samsung. We support remote web viewing and arm/disarm control via smartphone apps including remote off-site programming by any support engineer. Our multi-medium Alarm Data collection technology is unmatched and is the most advanced alarm monitoring solution in New Zealand.

IDEAL FOR:

- Commercial Businesses
- Industrial Sites
- Public Buildings
- Retail Sites
- Domestic Properties
- Compliance Agencies
